- 86 **NOLTE KÜCHEN**

ANYTHING. EXCEPT ORDINARY.

We are living in an age of possibilities. We create our world and our daily life based entirely on our personal wishes and needs. Driven by the freedom of deciding ourselves what we like and don't like. So even when choosing a kitchen, we don't just want a palette of standard products, but search harder to find something that is perfectly tailored to us and to which we can add a personal touch. In short: a kitchen with maximum individuality. A nolte**neo** kitchen.

HOW DOES nolteneo WORK?

With just a few changes, you can turn your Nolte kitchen into a nolteneo kitchen. nolteneo means you've no need to compromise on anything – on the contrary: In addition to all available fronts and worktops, you can also choose from different carcass heights, including Matrix750, Matrix800, or Matrix900, either with handles or as handleless MatrixArt variants. Plus, the entire Nolte Küchen product range is at your disposal for planning your nolteneo kitchen. Further exclusive design options are also available.

One of the core elements for every nolteneo kitchen is the **neoBOX**. The high-quality drawer and pull-out system lets you bring modern design into the cabinet interior. The narrow side frame appeals with a simple elegance – nothing spoils the look. Coloured in anthracite, it harmonises perfectly with every colour finish that's featured in our collection.

But of course, nolteneo offers much more! Discover the extensive nolteneo range on the following pages: from exclusive fronts and worktops to unique handles and completely new planning possibilities – let your creativity run free!

nolte**neo** –
THE UPGRADE
FOR YOUR
NOLTE KITCHEN

What makes nolte**neo** so different is not only its immense versatility and all of the options it provides for individualising the kitchen you are planning, but also the unerring continuation of a kitchen concept that can look back on a track record of success spanning decades: Nolte Küchen. This means all exclusive nolte**neo** products and designer elements can be combined with the entire Nolte Küchen range. Already planning your Nolte kitchen, but still want to give your new dream kitchen a very individual touch? Then simply add an exclusive nolte**neo** product or designer element, and turn your amazing Nolte kitchen into a nolte**neo** kitchen that's truly exceptional.

Simply ask your preferred kitchen specialist to show you the vast range of options that come with nolte**neo**!

nolteneo

ITALIAN AESTHETIC

Feel good in exclusive style. The **neo**LODGE front exudes Italian aesthetic in a way that's second to none. The combination of sleek lines with classy colours and materials is complemented by intelligent detail solutions such as side-fitted ovens or the elegant display units in manganese bronze.

MatrixArt ONE

MatrixArt ONE is the design-focused, handle-less kitchen: just one single handle trim profile below the worktop – which, of course, can be illuminated too – creates a particularly neat and graphic look. The top-most front is opened by the handle trim profile, the ones below by the PUSH-TO-OPEN assisted opening function.

neoLODGE FRONT

Clean lines brimming with character – neoLODGE in grooved, blackened oak veneer brings aesthetic appeal to every space.

nolteneo // 1

THIS KITCHEN'S HIGHLIGHTS

- // 1 neoLODGE front in blackened oak, grooved
- // 2 MatrixArt ONE with illuminated handle trim
- // 3 SOFT LACK front in magma soft mat

nolte neo

// 2

INVITING PURISM

Reduced look as the epitome of elegance. Featured all round, the shadow reveal forms a frame around the high-quality **neoLEAF** in noce marone, painting a picture that simply charms. Contrasting, the two tall units with **neoPURE** front in metal bronze rise out above the kitchen block as the peaks of a mountain range, complementing this kitchen's unadulterated aesthetic appeal.

THIS KITCHEN'S HIGHLIGHTS

- // 1 **neoPURE** front in metal bronze
- // 2 **neoLEAF** front in noce marone
- // 3 Shadow reveal all round
- // 4 MatrixZERO

MatrixZERO

MatrixZERO perfectly complements the shadow reveal. In conjunction with the **neoBOX**, PUSH-TO-OPEN for drawers and pull-outs gives you yet a further option for designing your handleless kitchen.

SHADOW REVEAL

Graphic, striking, unique – the 12 mm shadow reveal between front and side panel creates an expressive contour, making it an authentic design element for any kitchen.

nolteneo
// 3

COMMUNICATIVE CENTER

Oak diamond is the name of the light veneer with milled grooves that defines the clear character of this **neoLODGE**. Combined with GLAS TEC SATIN in white, it creates a modern material mix of glass and wood. Without upper cabinets, the island becomes the central element of the design. Cooking and communication take center stage by focusing on the essentials. Minimalists will be delighted!

THIS KITCHEN'S HIGHLIGHTS

- // 1 **neoLODGE** front in oak diamond, grooved
- // 2 GLAS TEC SATIN front in white
- // 3 Worktop in real glass, white
- // 4 MatrixZERO

GROOVED FRONT

The finely textured surface of the oak diamond front, made of oak veneer, creates a vibrant three-dimensional effect. The white worktop made of real glass enhances this effect even further, giving the kitchen its unique character.

COZY SIDEBOARD

The harmonious combination of the sideboard and shelving in oak diamond creates a seamless transition between the kitchen and living area. The cozy sideboard picks up on the kitchen design and gives the room a modern, inviting atmosphere.

nolteneo

//4

ARTFUL STAGING

This kitchen design masterfully balances contrasts: subtle enough to blend harmoniously into the space, yet so captivating that it draws every eye. It is a true masterpiece of spatial design – a compact kitchen that still offers all the functionality of a larger one. A special highlight is the **neoMIRROR** front, which reflects the room's extravagant design in a stunning and artistic way.

THIS KITCHEN'S HIGHLIGHTS

- //1 **neoMIRROR** designer front
- //2 Splashback panelling with mirror glass
- //3 Designer handle in black mat
- //4 **PLUS** front in black soft mat

neoMIRROR WITH MIRROR GLASS

The **neoMIRROR** designer front artistically sets the scene for every kitchen. The mirrored front is something that's truly exceptional. It gives the whole space a new dimension while at the same time making it an attractive focal point. The matching mirror glass splashback adds space to the kitchen and complements the whole composition.

DESIGNER HANDLE

The stylish, decorative handle is available in black or white mat. In an otherwise handleless kitchen with uninterrupted fronts, the large-surface handle makes a bold, eye-catching statement.

nolteneo //5

SCANDINAVIAN HAVEN

Designed with a look of openness, this is where white meets light-coloured timber in the form of the **neoLEAF** front in sand ash. No kitchen is more Scandinavian than this one. Integrated with purist finesse, a homely composition with built-in bench that emphasises this kitchen's flair.

neoLEAF

The authentic timber reproduction of **neoLEAF** in sand ash brings a natural feel to every kitchen! Authentic in graining and texture, the front creates a feel-good atmosphere in every kitchen.

nolteneo //5

THIS KITCHEN'S HIGHLIGHTS

- //1 neoLEAF front in sand ash
- //2 Designer handle in white mat
- //3 SOFT LACK front in white soft mat

nolteneo

// 6

JAPANDI STYLE

neoLEAF in golden oak is a dream come true for lovers of kitchens with a consistent wood look wood look. This decor has a subtle grain structure, which you can hardly tell apart from genuine wood because of the synchronous pore finish. Matching panels and worktops further enhance the puristic appearance in this MatrixZERO design. The eye is drawn to the light grey worktop, which runs through the whole island as a visual divider and becomes a table. White designer handles harmonize beautifully with the bright ceramic worktop.

THIS KITCHEN'S HIGHLIGHTS

- 1 neoLEAF front in golden oak
- 2 Ceramic worktop
- 3 Designer handle in white mat
- 4 MatrixZERO

MatrixZERO

Purist design in perfection – with MatrixZERO, you have the opportunity to create a kitchen with a consistently sleek and minimalist look. Thanks to the innovative PUSH-TO-OPEN system, drawers and pull-outs open effortlessly with a gentle push – completely without handles or grip rails. This handle-free aesthetic not only ensures a modern, minimalist design but also offers maximum flexibility in kitchen planning.

COMPLEMENTARY SIDEBOARD

The Japandi style combines a warm, cozy atmosphere with a strict aesthetic. The sideboard, featuring extended side panels in golden oak decor, enhances this look and brings a sense of calm and harmony to the living area.

nolteneo

URBAN JUNGLE FOR PURISTS

Entering the scene in a variety of materials, this kitchen appears to be set in an urban jungle environment with artistic mastery. Open styling and the absence of wall units conjure a feeling of freedom and spaciousness. In this scenario, not one but several nolteneo designer-style elements catch the eye. Accompanying the **neoGRID** tall units and **neoLODGE** loft-style, the **neoPURE** front in metal gold creates a warm contrast while at the same time underpinning this kitchen's modern look through the cooking island's plinth section.

TO THE
VIDEO

SIDE CLADDING AND PLINTH SUPPORT

Side claddings in the same material as the front bring a modern twist to finishing the end of a cabinet row and to islands. This option was previously only available for the MatrixArt handleless kitchen. This way, nolte**neo** lets you create a particularly high-quality and, at the same time, purist, and perfectly balanced look. Uninterrupted side claddings in 60, 75 and 90 cm height are available for all nolte**neo** kitchens.

One other distinctive feature is the nolte**neo** plinth support in black-finished aluminium which makes cabinet rows and islands appear to float. The plinth support is available in a height of 17 or 30 cm.

DISTINCTIVE CROSSOVER

When you want the country-home atmosphere of a chalet to meet the industrial style, it's time for you to introduce **neoNATURE**. Knots and a thick veneer with an embossed surface are the characteristics of the new front in oak cottage, which we have combined here to great effect with **FRAME LACK** in black soft mat. To make the contrast even stronger, **neoGRID** works well as a design element between the wooden fronts. Two worlds unite in a kitchen with substance and an unmistakable charm, guaranteed to leave a lasting impression.

THIS KITCHEN'S HIGHLIGHTS

- //1 **neoNATURE** front in oak cottage
- //2 **FRAME LACK** front in black soft mat
- //3 **neoGRID**
- //4 **MatrixZERO**

MotionLINE SHELVES

Freely planable MotionLINE shelves create striking accents and complement the rustic look of the trendy industrial style. Placed within the niche, the delicate metal frames add a sense of lightness while also providing practical storage space. Perfectly coordinated with the **neoGRID** design front, they create a harmonious overall look with urban charm.

neoGRID

The **neoGRID** front really is one of a kind and makes a striking design element. This otherwise purist kitchen uses the aluminium frame with expanded metal in black to create a glass display cabinet, not only making it one of the kitchen's elements but also a stylish piece of furniture.

neoNATURE

The **neoNATURE** oak cottage front brings the beauty of nature directly into your home. Genuine veneer with embossed recesses gives each front a unique texture – as individual as naturally grown wood itself. Thanks to high-quality wood stain and a durable lacquer finish, the natural appearance is preserved while being optimally protected. For an authentic living experience full of character and warmth.

|| 9

CHALET CHARM WITH
REFINED MODERNITY

This kitchen combines the clean lines of urban design with the warm ambiance of a country house in the mountains. The dark, grooved **neoCHALET** oak mocha wood fronts add natural depth and evoke the charm of traditional chalets — reduced to a modern, sleek aesthetic. The deep blue **SOFT LACK** island with a soft mat surface creates a stylish, sophisticated accent. Here, rustic comfort meets urban clarity.

neoCHALET

This distinctive front in oak mocha impresses with its vertically arranged, grooved appearance. The dark oak is highly versatile, from wall cabinets to side cabinets. With its deep mocha-brown color, it is a timeless yet modern classic.

WALL UNIT

Wall units are a practical way of providing more storage space in a kitchen. This kitchen ensemble dispenses with the classic layout of wall units and takes on a more relaxed look with open shelves. But it's not just the outside that's worth a look – what's inside also counts: integrated lighting is not only practical, but also creates a warmly lit ambience every time a door is opened. The high-quality adjustable shelves in glass let the light through and make the entire cabinet shine in a wonderful glow. What's more, the cabinet can be opened with PUSH-TO-OPEN electrical assistance.

nolteneo //9
THIS KITCHEN'S HIGHLIGHTS

- //1 neoCHALET front in oak mocha, grooved
- //2 SOFT LACK front in deep blue soft mat
- //3 Open metal shelves
- //4 MatrixArt design with illuminated handle recesses

nolteneo // 10

URBAN EXTRAVAGANCE

High ceilings, rooms flooded with light, ornate coving – old-property charm meets natural stone garnished with urban lifestyle. **neoSLATE** in deep black slate makes a bold statement. In combination with the henna red surrounding elements, the stone veneer front is a veritable eye-catcher. A modular design with concealment doors on the one side and, appearing to float on the plinth frame, the island and sink block on the other.

neoSLATE

The **neo**SLATE front is a unique stone front with a three-dimensional slate surface. Looking so natural, this front comes with very special aesthetic appeal.

VISIBLE SIDES

One aspect that makes nolte**neo** kitchens so special is the extensive selection of visible sides in mat lacquer, high-gloss lacquer and veneer on any chosen carcass interior colour. The extended visible sides logic no longer ties you to just one colour for the carcass interior. These can be combined with different fronts in any way to provide a perfect match with your chosen front or to create a striking contrast – entirely to suit your very own particular taste.

nolteneo //10

THIS KITCHEN'S HIGHLIGHTS

- //1 **neo**SLATE front in slate deep black
- //2 Plinth support in black aluminium for unit rows or island solutions
- //3 Visible sides in any chosen finish (as shown by this example on the wall unit in on-trend henna red)
- //4 **neo**SLATE side claddings in slate deep black
- //5 **SOFT** LACK front in henna red soft mat

nolte neo

SCANDINAVIAN SIMPLICITY

neoLEAF meets PLUS in white soft mat with anti-fingerprint properties. MatrixZERO ensures a minimalist, pure design while offering all the benefits of an 80 cm carcass height. The Scandinavian look gives the kitchen an elegant, restrained character that is, nevertheless, a real eye-catcher. The simple wood grain of neoLEAF is perfect for giving even large surfaces a wood look without making the room look too busy. Small, high-quality eye-catchers such as the wine cooler or the designer handle give this kitchen its special charm and complement the overall design.

Matrix800

The combination of Matrix800 and MatrixZERO creates the perfect balance between purist aesthetics and sophisticated functionality. The spacious 80 cm high carcass sets new standards in kitchen planning. In combination with MatrixZERO, a symmetrically structured, pleasantly calm front design emerges, ensuring a clean and uncluttered look. This well-organized design emphasizes the kitchen's purist character – modern, confident, and thoughtfully crafted down to the finest detail.

Nolte Küchen was honored with the prestigious **Kitchen Innovation Award 2025** for Matrix800, which is awarded for innovative and functional kitchen technologies.

nolte**neo** // 11

THIS KITCHEN'S HIGHLIGHTS

- // 1 **neo**LEAF front in sand ash
- // 2 PLUS front in white soft mat
- // 3 Designed handle in white mat
- // 4 MatrixZERO
- // 5 Carcase height 80 cm

INTERIOR ORGANISATION

Everything in order in the kitchen – true to this motto, nolte**neo** also gives you a wide range of options for practical interior organisation solutions to go perfectly with your kitchen. From saucepans to tableware, from cutlery to sorting waste – not only are drawers and pull-outs perfectly organised with nolte**neo**, they can also be provided with optional lighting at the side.

T.I.O. (TAKE IT OUT) FULL ORGANISERS

The T.I.O. (Take It Out) interior organiser is perfectly adapted to the nolte**neo** range. In elegant black and with the marble-look base, T.I.O. fits seamlessly into the kitchen design and makes sure that everything has its place – from cutlery and spices to larger utensils. This creates a kitchen that is as beautiful as it is functional and makes everyday kitchen chores easier and more efficient.

T.I.O. ADVANTAGES AT A GLANCE

- Removable main cutlery element for easy table setting and quick sorting from the dishwasher
- Elegant base plate in a marble look
- T.I.O. can be flexibly combined and expanded with accessories from the Nolte interior organization range in real wood ash black

OVERVIEW

nolteneo - OVERVIEW OF
PRODUCTS AND DESIGN ELEMENTS

neoBOX

The **neoBOX** drawer and pull-out system brings exquisite design to the cabinet interior. The **neoBOX** is one of the elements that every nolteneo kitchen has. The narrow side frame appeals for its simple elegance – nothing spoils the look. Coloured in anthracite, it harmonises perfectly with our collection's new graphite colour finish.

Sleek and attractive in design, the **neoBOX** also captivates with high-quality materials. For instance, the front panels on interior drawers and pull-outs are made of satin-finish glass. The **neoBOX** is practical: an extra-tall side profile is fitted on deep pull-outs in a height of 45 cm and over.

The **neoBOX** can also be used to provide illumination of the pull-outs. Fitted on the right and left of the drawer side frame, the LED lighting strip conjures atmosphere and shows where everything is when the drawer is opened.

The system automatically switches off on closing, which means that the rechargeable battery (included) only needs recharging after around 450 – 700 opening cycles.

VISIBLE SIDE

Innovative at second glance – initially taken for granted, for professional cooks though an exceptional mark of quality. With nolteno, the choice of visible side makes it possible to create a consistent and perfectly balanced look in whatever kitchen you plan, or lets you make statements with any choice of decor for front and side.

DESIGN POSSIBILITIES

MatrixArt ONE

MatrixArt ONE is the design-focused, handleless kitchen: just one single handle trim profile below the worktop creates a particularly neat-looking, graphic style.

The handle trim profile can be illuminated for MatrixArt ONE too – combined with slimline worktops, this creates a particularly delicate look that almost appears to float. Whereas the top row of drawers opens by hand, the bottom row comes out in response to a tap by PUSH-TO-OPEN.

MatrixZERO

MatrixZERO lets you dispense with handles and handle trim profiles, leaving cabinet fronts with a look that speaks purism in its very true sense. Deployed in this way, PUSH-TO-OPEN creates a look for handleless kitchens with graphically defined consistency. Combining this with a shadow reveal adds a particularly practical and elegant design feature.

SHADOW REVEAL

A shadow reveal between front and side panel creates a completely new contour, making a stylish designer element in every kitchen block. The combination of any chosen decor on front, worktop and visible side produces all-new options for kitchens designed with a look of their very own – featuring our new shadow reveal as an absolute graphic highlight.

HANDLES

Decorative handle in black

Mat black metal

Alongside a vast selection of exclusive nolteneo products, you can choose from the entire Nolte Küchen product portfolio.

nolte[®]
KÜCHEN

Nolte Küchen – synonymous with exceptional quality, variety and service, reliability and continuity. For us, good is not good enough. Our aim: to be better than the average. This applies not only to the materials that we use, but also to the concept, technology and design.

MATERIAL VARIETY THAT DELIGHTS

Nolte Küchen gives you access to all on-trend materials – regardless of budget. Whether wood, lacquer, glass, metal or cement, we can offer you reproductions of any original material that look exactly like the real thing.

MATRIX+

A PLUS FOR ADDED POSSIBILITIES

Flexibility and individuality are key to interior design, now more than ever. That is where our innovations come in to set new benchmarks for kitchen planning. Under the name MATRIX+ we now offer an expanded range of three carcass heights, all of which are perfectly adapted to your needs.

MATRIX750

THE CLASSIC OPTION

The standard carcass height for a classic kitchen design combines optimised storage space with an ergonomic working height and is the perfect match for a wide variety of kitchen styles. With its timeless versatility, it suits both traditional and modern designs.

MATRIX800

THE DESIGN-FOCUSED CHOICE

Matrix 800 offers more storage space and a plethora of options for focusing on great design. The new carcass height makes it possible to integrate 40 cm high pull-outs and 20 cm high drawers to optimise use of the available space. At the same time it creates a modern style with ingenious details. Nolte Küchen has now been awarded the prestigious Kitchen Innovation Award 2025 for this innovation, which is presented for innovative and functional kitchen technologies.

MATRIX900

MAXIMISED VOLUME

Matrix 900 is the perfect solution for anyone looking for maximised storage space and modern design. With a particularly low plinth and a carcass height of 90 cm, it creates a home-like ambiance and provides a convenient, ergonomic working height, without compromises.

RESPONSIBILITY FOR THE ENVIRONMENT

As a successful German company, we are aware of our tremendous responsibility towards preserving natural resources, keeping air and water clean, and to acting sustainably – from the production to the shipping of our kitchens. The figures for the emissions of harmful substances from our materials are significantly lower than the legal requirements. Modern filter systems ensure that no harmful substances are able to escape into the environment during production. And when the time has come that we are able to deliver your kitchen to you, we only use environmentally friendly packaging materials that can be recycled. By doing so, we are able to provide the best conditions for a healthy life with your kitchen.
